FALL FASHION OPENING OF THE MERCHANTS OF CITY PROM-THE KIND EVER HELD HERE.

On Wednesday night next Ardmore will witness what will be perhaps the most brilliant Fall Fashion Opening

ever attempted in the southwest. The merchants as a whole are preparing most elaborately to make brilliant displays and novelties are being prepared in which all of the decorator's art has been employed.

Living models, augmented by electrical and spotlight embellishment, are promised, windows are to be dressed as never before in the history of the city, and dame fashion reigns supreme that night.

The windows of the merchants of the city will be covered the early part of this coming week, and on Wednesday the curtains will be drawn and the doors of the stores thrown open to the public.

No goods will be sold but receptions with music will be held. While the number of visitors from the surrounding towns cannot be estimated, it is known that visitors from large stores in Dallas and Oklahoma City, Fort Worth and Denison are coming. The Spring Style Show pulled off at Ardmore last spring attracted so much attention that the eyes of the mercantile world in this part of the country
